

Greetings from Dr. Slime,

We are booking shows for the current school year, have your principal, parent activity group, or science teacher contact Dr. Slime today.

This brochure outlines some of the possible programs, you can pick from Super Cool Matter, The Spooky Halloween Show, Smell Chemistry, The Slime Show, Dinosaur Bones, Comets & Meteorites Show, Custom Shows, Birthday Parties, and many other special events. Mike has performed shows for schools, conventions, malls, and science centers.

His show calendar fills quickly so contact Dr. Slime as soon as possible to arrange the best possible time for your school. Call (989) 781-2881 to book a show or call Mike directly for free advice for your science program today at (989) 280-6306.

Mileage in tri-cities area is free. Transportation, & travel cost vary by distance.

How Does it Work?

Dr. Slime will arrive at your school 45 minutes before the first group session. With your help he will be able to unload and set-up our equipment. Large group shows can handle 400 students. Classroom activities are limited to 30 per session. Multiple sessions can be easily arranged for you at a discount. Plan today for your school.

Teachers!

Do you want to get your students more excited about science? Give your class a chance to work with hands-on activities & see the principles of real science at work?

What is the Cost?

Typically a show costs \$350 for one, \$500 for two. Classroom activities run \$200 for the first room and \$100 for each additional session. Tri-County area travel is free. A small per mile charge applies outside this area. If you can't afford me please call, many times I can help you find a local sponsor or give free shows. If grant applications are approved more shows can be given on a no-cost basis.

Our schedule tends to fill up quickly. We do look forward to hearing from you!

**Thanks To ...
Michigan Air Gas
Saginaw Childrens Zoo**

We need sponsors, if you like our show please consider lending your support. Thanks.

Dr. Slime is the archetype of a crazy scientist character, with his slime green hair and love of science. His mission is to excite, educate and entertain. Each of his eye-catching demos is followed up with a complete discussion of the scientific principles involved. It makes science fun, interesting and easy to understand.

WHAT IS IT?

This is an outreach program created by Michael Garlick. The show travels to many (30 max.) Midwest Schools each year. Our traveling show presents in two different formats: large group demos using scaled-up materials; or in individual classrooms as hands-on labs.

Many of our demos are small-scale versions of the exhibits you might find at the Pacific Science Center in Seattle, Wa.

Examples:

- Plasma Ball Lightning
- High Energy Static
- Square Bubbles
- Chemical Changes
- Fog Ring Physics
- Gobblins Brew™
- Polymers (Slime)
- Super Cool Liquid N₂.
- Stones, Bones & Comets
- Eerie Sounds, & Smells
- Bugs, Snakes, & Frogs
